that a group of volunteers standing at the base of the tree could collect in bed sheets they were holding. There was just one

problem: wind. "The tulip poplar seeds are like maples - they are winged and are sort of like little helicopters," Moore says.

As Hubbard shook the branches, all those seeds took off in the breeze, leaving the volunteers below scurrying after them. Fortunately, they caught enough of the seeds to distribute 100 Davie Poplar seedlings to students from across the state.

Seventeen years later, the original Davie Poplar still stands, and Hubbard still climbs. But when it comes to being irreplaceable, Hubbard stands alone..

Recipe of the Week Roasted Turnips

Provided by Sarah Blacklin, Market Manager

I bunch of turnips

• 6 cloves of garlic (unpeeled with bottoms cut off)

• ¼ cup of olive oil • salt and pepper to taste f• resh herbs if available The greens can be a great side dish and can be cooked

down in a skillet just like collards

Preheat oven to 3750 Remove greens and tip of root and scrub turnips well. Cube (use slightly larger chunks if roasting with other

root vegetables as turnips cook faster than most). Toss with olive oil, garlic and spices.

Spread evenly across the bottom of your roasting pan. Roast for about 30 minutes or until they begin to brown around the edges. Know that turnips won't crisp up like potatoes because of their high water content.
