A helping hand

This weekend, UNC Build a Block, in partnership with Habitat for Humanity, will construct two houses from foundation to roof for UNC employees.

UNC Build a Block is a university-wide initiative aiming to provide enough volunteer labor to build 10 houses for 10 UNC employee families who live in substandard housing.

The student-led program began construction on Sept. 11, 2010 and is expected to last the duration of the 2010-11 academic school year.

Dedication of MLK Blvd.

On Monday, the Town of Chapel Hill will air a documentary video about the naming and dedication of Martin Luther King Jr. Boulevard on Chapel Hill TV 18, the government-access cable channel, at noon and 7 p.m.

The video features the dedication celebration on May 8, 2005, which marked the 45th anniversary of King's visit to Chapel Hill.

The film includes music by the J.R. Manley Essence of God Youth Choir and the St. Joseph Male Chorus and presentations by former Mayor Kevin Foy, Rev. Jill Edens of the United Church of Chapel Hill, late town council member Bill Thorpe and Fred Battle, former president of the Chapel Hill-Carrboro NAACP.

Deltas sponsor MLK blood drive

The Chapel Hill-Carrboro Area Alumnae Chapter of Delta Sigma Theta Sorority, in partnership with the Red Cross, is sponsoring the 22nd Annual MLK Jr. Day blood drive on Monday from 1 to 6 p.m. at the Hargraves Center.

Prospective donors are asked to visit unc.gives-blood.org to register for an appointment. Prospective donors are required to bring a photo ID. For questions about eligibility, visit redcrossblood.org or call (866-562-7156).

For more information about the event, contact Erma Smith-King at 303-9686 or ermaplus@bell-south.net

Biodiversity pioneer to speak

Edward Osborne Wilson Jr., Harvard University professor and two-time winner of the Pulitzer Prize for nonfiction, will deliver UNC's spring commencement address.

Wilson's works on entomology are significant in the scientific community and he has written extensively on sociobiology and biodiversity. In the tradition of Rachel Carson, founder of contemporary environmental movement, Wilson's work bridges the gap between science and the humanities, making science accessible to the general public and presenting the case for conservation of the natural world.

The ceremony will be held May 8 at 9:30 a.m. in Kenan Stadium.

HOUSE Calls

Practicing family physicians from the UNC Department of Family Medicine have teamed up with *The Carrboro Citizen* to bring you a weekly feature responding to your questions about health and medicine. Send your questions or comments to yourhealth@unc.edu

This week, we respond to questions about facial hair, cholesterol medicines and reflux.

Dear *HOUSE Calls*, I am post-menopausal and diabetic. Lately, I have noticed more facial hair on my chin. I purchased a product that looks like a thimble that you rotate back and forth on the skin. The package insert states that people with diabetes should not use this product. There are no chemicals or medications. Why should diabetics avoid this, and what is the best way to deal with facial hair?

This does seem to be a case of the manufacturer being careful. The product probably causes some irritation when rubbed against the skin or when cutting hair. If you were to get a wound, it might not heal as well or as quickly. The product probably was not tested for safety in diabetics. Then again, men with diabetes still shave. Given that we don't know much about the product, it is hard to give out advice.

As for alternatives, plucking hairs can remove them for six to eight weeks. This is uncomfortable, but may be the best option if you don't have too many hairs. Other options include waxing (similar outcome to plucking) and shaving, which is easier and less painful but needs to be done more frequently. Laser therapy has good outcomes but is much more expensive. Good luck.

Dear *HOUSE Calls*, Why is my cholesterol medication supposed to be taken in the evening?

More cholesterol is made in your body overnight, when you are in a relative fasting state. There is some evidence to suggest that this makes a small difference in your cholesterol measurements, but it is probably more important that you take the medicine reliably.

Dear *HOUSE Calls*, I'm 65 years old and hoarse all the time. I saw an ear, nose and throat doctor, who said I had swelling in my larynx and it came from acid reflux. I do

take ibuprofen for arthritis, and he said to stop that and to take Nexium. Is there anything else I can do, and how long do I need to take the medicine? I still cough and clear my throat all the time.

Great question. Yes, there are other things you can do. Eat smaller meals, don't lie down after meals, don't go to bed with a full stomach, raise the head of your bed on two-inch wooden blocks and avoid caffeine and nicotine. Rest your voice when you can, and you also might need to see a speech therapist to work on voice retraining and help with the clearing. You may be able to get off medicine if you are able to modify your diet and stop or minimize the reflux. You will need to be on medicine at least until your larynx recovers.

HOUSE Calls is a weekly column by Dr. Adam Goldstein, Dr. Cristy Page and Dr. Adam Zolotor on behalf of Your Health and the UNC Department of Family Medicine.

District students can receive Service Learning Hours for their participation. To volunteer, contact Renny Johnson at 967-8211, ext. 28349 or rjohnson@chccs.k12.nc.us

Trinity School to offer diversity scholarships

Trinity School of Durham and Chapel Hill recently announced a new scholarship program for students of color.

Scholarship winners will have \$5,000 a year applied to their tuition charges.

The scholarships, funded by a recent donation to the school, are the first merit scholarships to be offered by Trinity School.

The application and financial aid deadline is Jan. 21. For more information, visit trinityschoolinc.org or contact Lorna Spence at 402-8262, ext. 1503.

Kleinschmidt, Medlin visit CHHS

Chapel Hill Mayor Mark Kleinschmidt and UNC Student Body President Hogan Medlin visited Chapel Hill High School on Friday as part of a national commemoration of the 50th anniversary of the inauguration of President John F. Kennedy.

The United States Conference of Mayors organized the event, entitled "JFK 50th: Mayors Ask What Youth Can Do." Kleinschmidt and Medlin visited the fourth-period civics and economics class taught by Tom Greene.

Mayors across the country were encouraged to visit a middle or high school classroom to discuss their paths to public service and why it is important for young people to be engaged in their communities. Each mayor was asked to invite a leader under the age of 30 to discuss his or her work for the community.

Smith receives \$100K EU grant

The European Union has awarded Smith Middle School about \$100,000 to fund "Getting to Know Europe Activities" at the school.

Smith has received this award three times. The grant will fund the school's Belgian travel and exchange program, professional development for district world-language teachers and school-wide and community events, such as Euro-Zone for Global Connections and the Europe Day Celebration.

Under the grant, 31 students and others will travel to Paris, Normandy and Brussels before spending a week with pen pals in Belgium.

The EU awarded 11 such grants to American organizations, primarily universities. Smith French teacher Robin McMahon is the primary grant writer for the project.

Culbreth recognized by Apple

Culbreth Middle School's Apple Distinguished School status has been renewed for the 2010-11 school year.

Culbreth received the recognition as a result of the school's iPod Touch project. A letter from Apple praises the school for its innovative use of iPods with English-language learners. Representatives from Apple will attend a district board of education meeting to present the award.

Apple Distinguished School awards for 2010-11 were presented to 52 schools across the country, including one other school in North Carolina. The awards are given to schools "that have become centers of educational excellence and leadership, consistently demonstrating 'best practice' qualities of a 21st century learning environment utilizing Apple technology."

What exactly is an 'ugly' win?

BY EDDY LANDRETH
Staff Writer

Even its hall-of-fame head coach referred to Carolina's 62-56 victory at Virginia on Saturday as an "ugly win."

While Roy Williams has probably forgotten more basketball than I'll ever know, I vehemently disagree with him about that statement.

Of course, if the Tar Heels score fewer than 90 points it takes some of the luster off the game for Williams. He spends a good portion of every game waving his arms in an effort to get his point guard, whoever that may be, to get the ball up the court faster. The sooner UNC can retrieve the ball at the opponent's basket (for Williams, preferably after a missed shot) and race to the other end to score, all the better, as far as Williams is concerned.

Certainly there is a beauty to watching Williams' version of Carolina basketball when it is in high gear. Former point guard Ty Lawson could crush a team's confidence by scoring a couple

of seconds after an opponent had worked so hard for its two points.

But there was a beauty about Saturday's victory that Williams would love to see his team replicate in tonight's 9 p.m. game against Virginia Tech at the Smith Center. And that aesthetic is all about resolve and toughness, a will to win that simply did not exist with the 2010 team, at least not until it found itself playing in the postgame NIT rather than the NCAA Tournament.

There is nothing unique about having to scratch and claw to win a game at Virginia. No matter how the Cavaliers play against anyone else, Carolina and Duke will have to dig deep to win in Charlottesville. Those two shades of blue inspire the other conference teams to give their finest efforts, if not always their prettiest basketball.

"We fought," Williams said. "We had some toughness today, more toughness than I've seen in a long time. This isn't a cut against last year's team, but last

year's team did not show that toughness when we got down."

Therein lays the beauty of the win at

Virginia. Carolina has entertained its fans and infuriated its opponents for more than the past 50 years with its ability to find some way to win close, physical games. The games have become increasingly physical through the years; but up until last year, with the exception of a brief period at the turn of this century, there has been a remarkable consistency in the Tar Heels' ability to win, even when defeat appeared certain.

The school's sports publicity department has a chapter in its annual media guide on many of the dramatic comebacks through the years.

One thread that weaves through all those games is toughness. The toughness is as much, or more, mental than it is physi-

cal. Tyler Hansbrough and Sean May epitomized the physical toughness with their consistency against the pounding opponents would dish out every night. But Wayne Ellington's three-pointer at the buzzer to beat Clemson in Littlejohn Coliseum in overtime in 2009 is an example of the mental toughness.

There are many ingredients that go into being Duke or Carolina. Those traits are quite rare, which is why these two stand out so uniquely among the more than 300 Division I teams playing the game.

In the past two seasons, UNC lost many of those qualities because so many of the players who understood them and displayed them each night left via graduation, early departure for the NBA or transferring to another school. This team has a long way to go, but victories such as the one at Virginia are how the Tar Heels can regain the consistency and confidence needed to be an elite team.

And there was nothing ugly about that.

Knox Massey Award Citation, "a churchman to his marrow, and a lay reader of rich voice and enviable diction whose readings of scripture and prayer book allow his auditors to imagine they are hearing a Caroline Divine."

Mr. Hunt cherished his family and was cherished by them and held the university, Chapel Hill and North Carolina close to his heart.

Bertha Kogan

Bertha Berger Intrator Kogan breathed her last on Dec. 20, 2010 in Reseda, Calif. Los Angeles has been her home for the last 70 years. She was the daughter of the late Sam and Sophie Berger of Desert Hot Springs, Calif., and Westwood and Pacific Palisades, Calif. She was the widow of the late Joseph Intrator and Joseph Kogan, respectively.

Bertha had a plethora of friends, many of whom worked under her at the UCLA radiology film room, where she had worked for 25 years. She was well liked and respected.

Bertha had met her late hus-

band, Joe Intrator, at a May Day Parade in NYC and subsequently moved to California with her parents and Joe prior to his shipping out to the South Pacific. With her parents and younger sister, Zena Glenn, in tow, they first arrived in Catalina Island, Calif., where they ran an inn and then moved to the mainland to Muscle Beach, and then Santa Monica, Calif.

She loved music, especially folk music, and enjoyed playing guitar and autoharp, accompanying Joe and her two sons, Roland and Mike, as well as others who might stop by. In addition to music, Bertha enjoyed camping, walking and traveling the country with Joe and their weimaraner, Topper, and traveling in foreign countries with her sister.

She was always there for her family, and was a hard worker - a trait instilled by her parents. She placed a lot of trust in her boys and gave them freedom to find their way.

She leaves in her wake her sister, Zena Glenn, of Santa Monica, Calif.; sons, Michael (Donna) Intrator, Streamwood, Ill.; Roland (Wendy) Intrator, Chapel Hill, N.C.; grandchildren, Xela and Micah Intrator of Chapel Hill; niece, Lee Glenn of Chapel Hill; nephew, Jeff Glenn of Santa Monica, Calif.; niece, Jill Glenn (Eric McCoy) of Glendale, Calif.; grandnephew, Steve Glenn of Santa Monica; grandniece, Melissa Schmidt and family of Valley Center, Calif.; grandson Justin Intrator and grandniece Kaia Glenn Parker, two souls who left this life too early.

Each and every one of them got their fare share of grandma love.

A memorial will be held to celebrate her life, and will be published at that time.

Out beyond right and wrong there is a field. I will meet you there. - Rumi
