Dear Mrs. Elder,

I've highlighted a page in the transcript where you were not sure whether you wanted it included in the transcript. Please let me know whether I should omit that passage from the transcript before I submit the final copy to the Southern Historical College at the University of North Carolina at Chapel Hill. I will give you a call in early to mid-January to confirm your decision.

I hope that you will agree to keep the passage included, as it adds a complexity to an already complicated story. I hope you are doing well and wish you all the best.

Take care,
